PROFESSIONAL SUMMARY

Full-Stack Developer and Computer Science & Engineering student at RV College of Engineering, with hands-on internship experience developing SaaS applications using React.js, Java Spring Boot, and MongoDB. Experienced in REST API development, JWT authentication, Role-Based Access Control, and third-party integrations including Cloudinary, and LocationIQ. Passionate about building secure backend systems, intuitive interfaces, and scalable software solutions.

WORK EXPERIENCE

Full Stack Developer Intern | *Fourise Software Solutions Pvt. Ltd., Pune* **Dec 2025 – Apr 2026**

- Completed a 4-month paid full-stack internship developing core modules for the PGMate SaaS platform using React.js and Spring Boot.
- Designed REST APIs and implemented secure JWT authentication with Role-Based Access Control (RBAC).
- Integrated Cloudinary for media uploads, LocationIQ for geolocation mapping.
- Designed MongoDB schemas, conducted API debugging and testing, and collaborated in Agile sprint cycles.

PROJECTS

PGMate — Smart PG & Hostel Management Platform **[Done]** **2025 – 2026**

React.js | Spring Boot | MongoDB | Cloudinary | LocationIQ · Live: https://pgmate.in/

- Architected multi-role SaaS workflows for PG & hostel discovery, room and bed availability, and tenant management.
- Integrated LocationIQ geolocation mapping, Cloudinary media pipelines, admin moderation, and owner analytics.

VolunteerLoop — Student Volunteering & Event Management Platform **[Done]** **2026**

React.js | Vite | FastAPI | Python | MongoDB | REST APIs

- Built a web-based platform connecting students with volunteering opportunities and enabling organizations to manage events, registrations, and volunteers.
- Developed backend APIs supporting event discovery, organization applications, event and duty management, and volunteer registrations.
- Designed workflows for attendance tracking, verified volunteer hours, notifications, and role-based access for students, organizers, and administrators.

BugFlow — Bug Tracking Platform **[In Progress]** **2026 – Present**

React.js | Spring Boot | MongoDB | JWT | Cloudinary

- Developing multi-tenant workspace management, issue tracking, and role-based access (Super Admin, Owner, Dev, Tester).
- Implemented JWT authentication, bug reporting, task assignment, and issue lifecycle (Workspace → Project → Issue).

TECHNICAL SKILLS

Programming Languages : Java, Python
Frontend : React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Axios, React Router
Backend : Java, Spring Boot, Spring MVC, Spring Security, RESTful APIs
Database : MongoDB, MySQL, Hibernate ORM, Spring Data JPA
Authentication : JWT, RBAC, OAuth 2.0 fundamentals
Development Tools : VS Code, Git, GitHub, Postman, Maven, Eclipse IDE
Integrations : Cloudinary, LocationIQ APIs

EDUCATION

RV College of Engineering (RVCE) **Sep 2026 – Present**

Bachelor of Engineering (B.E.) in Computer Science & Engineering | *Bengaluru, Karnataka, India*

Government Polytechnic, Kalaburagi **Jun 2023 – Apr 2026**

Diploma in Computer Science & Engineering · BTELINDIA | **CGPA: 9.97 / 10**

Gayatri Girls High School, Gulbarga **2022 – 2023**

Secondary School Leaving Certificate (SSLC) · KSEEB | Score: **88.64%**

CERTIFICATIONS

- **HTML5, CSS3, JavaScript, Spring REST, React.js, and Python** — *Infosys*
- **Hardware, Networking & Cybersecurity** — *KGTTI*
- **Endpoint Security** — *Cisco Networking Academy*
- **Field Technician Computing and Peripherals (ELE/Q4601)** — *ESSCI*
